

Our team is your team. One investment at a time.

We're not just another "deal shop," we're a software-focused private equity firm 100% committed to aligning our most experienced people with a select group of companies. We believe that uncompromising integrity, humility and transparency create successful partnerships. We encourage you to learn more about what it's like to work with us from the people who know us best: our executive teams, company founders and investors.

Our Firm

- We closed Fund I in 2018 at over \$200M and recently closed Fund II in 2022 at over \$500M
- We have a team of 29 people, primarily Atlanta-based + Austin, Silicon Valley & London and have an integrated, in-house operating team with a history of successful value creation
- To-date, we have completed 13 platform investments and 11 add-on acquisitions

Investment Criteria

Business Profile (Platform Investments)

- Capital efficient businesses with \$5-30M revenue (scale flexibility for add-ons), majority of which is recurring
- Potential for market or segment leadership
- Compelling organic and inorganic (M&A) growth thesis

Segments

- Application software
- IT Infrastructure software / developer tools
- Information / data / analytics software and tech-enabled services

Deal Type

- Primarily focused on majority recapitalizations; will consider minority growth capital investments
- Founder-owned businesses, carve-outs and previously-backed companies

The Resurgens Approach

Our approach is rooted in our unequivocal commitment to actively contributing to value creation at each of our portfolio companies. There is no "playbook" that we follow — each company is unique with its own set of challenges and opportunities. Applying our team's collective experience, with deep operating and consulting experience in software, we help management make operational improvements focused on growth opportunities, primarily in these categories:

Investment in
Products/R&D

Alignment of
World-Class Talent

Go-to-Market and
Operations Support

M&A Strategy
Execution
