

Resurgens Technology Partners had a year of exceptional growth. Here's a look back at all we accomplished, and we are excited for a great 2023 ahead!

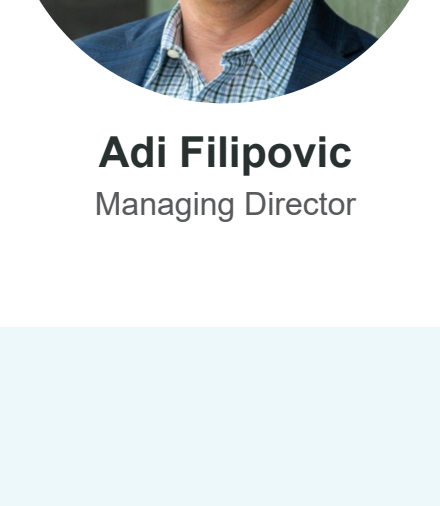

A Word from the Founders.

2022 was an incredibly active and fruitful period for our firm and our investors. When we founded Resurgens Technology Partners, our goal was to build an impeccable reputation as the partner of choice for emerging software companies, while being rooted in integrity, humility, hard work, and fun. Our successful fundraising efforts, portfolio performance, and expansion of our team in 2022 give us the confidence that we are delivering on that goal and staying true to our core values. We are extremely grateful for our team, the extraordinary management teams we are privileged to partner with, and our investors. We look forward to a bright 2023 ahead.
